

Monitoring meeting 17/03/2021

Safeguarding/Early Years

LW-Governor + NB Deputy Head/DSL

A short meeting to find out how the return to school had been for everyone.

Findings:

- Vast majority of children had returned to school positively and were excited to be back
- Staff worked with families who were concerned about the return of their children and those children are now attending school
- Staff had undergone training around children's mental health and wellbeing
- Safeguarding weekly meetings continue and the all systems in place continue to work well
- Nursery numbers are increasing with new children joining after Easter.

Thanks to everyone for this positive return to school
