Top Tips:

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

If you would like more ideas, please speak to your child's teacher.

Use practical resources, for example –

- Counting objects around the home, making piles of 0, 1, 2, 3, 4, 5 and
- then counting them in order to 5 and back...use sweets, Lego, fruit,
- stones, leaves etc.
- Looking for numbers up to 5 around the home and when you are out and about....can they count on or back from that number?
- Singing number songs where the numbers are going backwards, e.g. Five little speckled frogs, Five little monkeys jumping on the bed etc.

<u>Use what you already know</u> – Use number bonds to 10 (e.g. 7 + 3 = 10) to work out related number bonds to 20 (e.g. 17 + 3 = 20).

<u>Use practical resources</u> – Make collections of 20 objects. Ask questions such as, "How many more conkers would I need to make 20?"

<u>Make a poster</u> – We use Numicon at school. You can find pictures of the Numicon shapes here: http://fdslive.oup.com/www.oup.com/oxed/primary/maths/numicon/Numicon pcms Shapes, Numerals and Number Words 1-10 (Actual Size).pdf?region=uk – your child could make a poster showing the different ways of making 20.
